ABOUT US

Get to know us

Overview

Another Hope – Koyombe CBO is a community-led organization established in 2021, dedicated to uplifting households in Gwassi North Ward, Homa Bay County. Grounded in Compassion and Resilience, we restore hope by addressing the root causes of poverty through a holistic lens. We don't just provide aid; we empower our community to lead their own sustainable change and build a future of lasting dignity.

Mission & vision

Mission

We support impoverished members of the community, while promoting environmental sustainability

Vision

A world where individuals thrive, supported by resilient communities and a healthy planet.

Our pillars

Water and sanitation
Shelter
Education
Environment
Agriculture
Culture and Heritage

Pillar 1:shelter

Embrace the Serenity of the Forest

We are dedicated to restoring hope and dignity to families by addressing the urgent need for safe housing. By providing the materials—iron sheets and timber—and professional labor, we transform vulnerability into security, one home at a time.

Identifying the Need: Many families in our community live in unsafe structures that cannot withstand the elements.

Resilience in Action: Our local technicians work tirelessly to provide secure, weather-proof housing.

A Second Hope: Successfully constructed shelters provide a secure and dignified living environment for households.

Pillar 2: water and sanitation

Ensuring access to clean, safe water for all

Clean water is the foundation of a healthy community. Access to clean water is a fundamental right that remains out of reach for many. Another Hope – Koyombe CBO works to bridge this gap by implementing water security projects that provide safe drinking water and improve sanitation standards. By combining infrastructure with community education, we are reducing waterborne diseases and improving the quality of life for all.

Completed water tank project

Pillar 3: Education

Education is the most powerful tool for breaking the cycle of poverty. At Another Hope - Koyombe CBO, we believe in providing equitable access to quality learning opportunities. By removing the financial barriers of school fees and supplies, we empower our youth to dream bigger and equip them with the skills they need to lead our community's future transformation

Holistic Mentorship: Beyond academics, we provide termly mentorship meals to offer emotional support and encouragement to our students.

Pillar 5:Environment

Joining hands to conserve our natural heritage for future generations

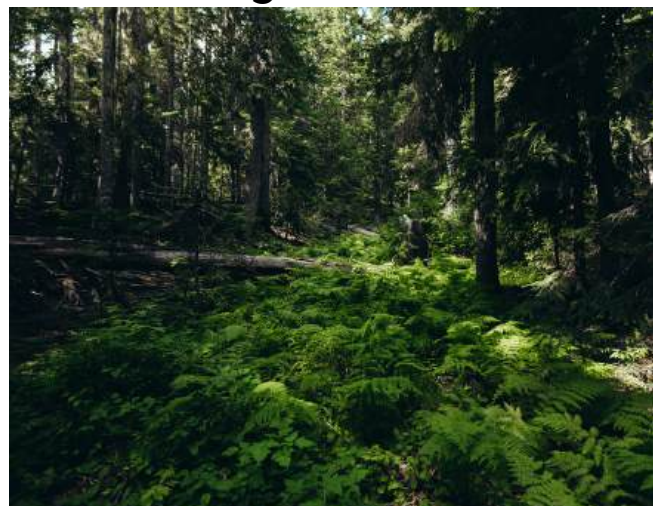

Environmental Conservation:We implement community-wide awareness and afforestation programs to protect our local ecosystem.

Waste Management: Our initiatives include modern waste management practices to keep our surroundings healthy and clean.

Sustainability: We ensure that every development project we undertake promotes long-term environmental health.

5 dollars can purchase
4 seedlings

Pillar 4: Agriculture

Cultivating food security and sustainable household income

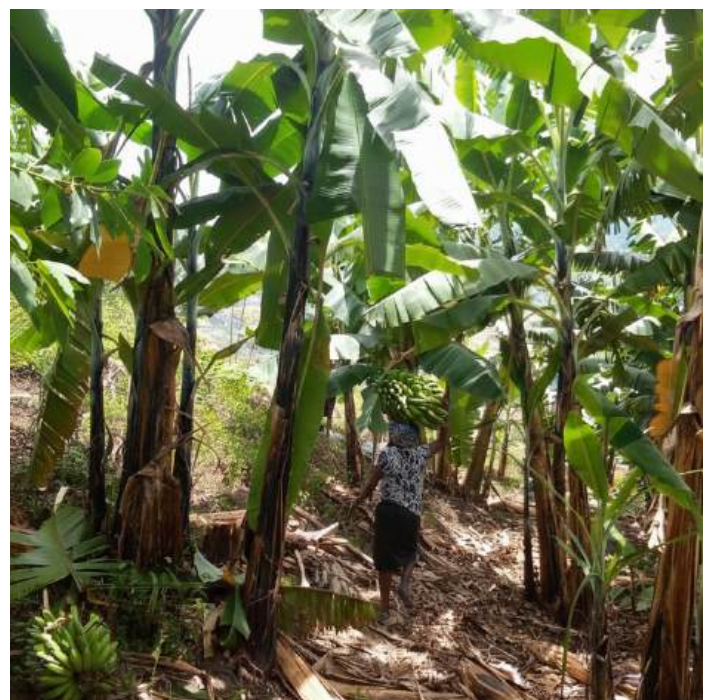

Livestock Production: We initiate projects that purchase poultry or small livestock to help families start sustainable income-generating ventures.

Food Security: Our team works hard to deliver consistent food resources for the community through improved farming practices.

Economic Empowerment: We provide seed grants that allow families to move from subsistence to surplus, creating a path to financial independence.

Donation from World Vision; Many people keep bees today.

Pillar 6: Culture and Heritage

Development is not just about infrastructure; it is about the people and the stories that bind them together. At Another Hope – Koyombe CBO, we cherish our cultural heritage as a source of strength and unity. By celebrating our roots, we foster a sense of pride that empowers the community to protect its resources and lead its own change with dignity.

Join our journey of hope

Your partnership is the bridge between a family's struggle and their future success.

Why Partner with Us?

- ✓ **Direct Community Impact:** Every shilling or dollar donated goes directly toward community projects led by local experts.
- ✓ **Sustainable Solutions:** We don't just provide temporary aid; we build permanent structures and self-reliant systems.
- ✓ **Radical Transparency:** We provide detailed reports and photo updates for every project we undertake.
